

REQUEST FOR PROPOSALS
PROJECT NUMBER 2025-05-3220

Addendum #1 – Clarifying Information

CITY OF COLD LAKE
Fire-Rescue Apparatus

Release Date: March 17, 2025
Closing: April 16, 2025

1.0 Introduction

The City of Cold Lake (COCL) is issuing this information bulletin to answer some questions raised by proponents and provide a little more context for the provision of a Fire-Rescue Apparatus.

2.0 Loose Equipment (ref article 7.6.2.), to be priced separately

2.1 Pickets (16 units)

These items are used to secure base plates in heavy rescue operations as well as improvised anchor systems.

The examples shown above are available directly from Paratech (Double Head Steel Pickets (22-796P14)). Suggestions from alternate vendors and/or manufacturers are welcome.

2.2 One (1) handheld 12000-pound winch receiver mounted

The bid document requests front, rear and side receivers. Proponents may propose an alternate solution or equipment that they feel meets the intent.

3.0 Equipment Mounting Budget (ref. article 8.6)

The tools pictured in the Request for Proposal are existing equipment. Mounting solutions are requested for items under article 8.6 of the Request for Proposals.

4.0 Various Hand Tools (ref. article 8.6.2)

The two (2) Rescue Jacks required are manufactured by HI-LIFT - First Responder that are 36" and 48" in length.
